

MUHAMMED IJLAN TK

ESG Consultant | Carbon Compliance (RCO • CCTS • PAT • CBAM) | GHG Accounting | Environmental Science

ijlanibrahim@gmail.com | +91 6235169777 | [linkedin.com/in/ijlan-tk-](https://www.linkedin.com/in/ijlan-tk-)

Portfolio: muhammed-ijlantk-tech.github.io/ijlan-esg-portfolio | Open to relocation across India

PROFESSIONAL SUMMARY

MSc Environmental Science graduate and ESG Consultant at Carbon Crunch, delivering Renewable Consumption Obligation (RCO) compliance modelling for UltraTech Cement across five plants. Combines industrial energy data analytics (utility bills, multi-facility Excel trackers, Data QA), Scope 1 & 2 GHG Protocol accounting and GIS spatial mapping. Working knowledge of CCTS, PAT, voluntary carbon markets (VCM) and SEBI BRSR / BRSR Core. Targeting ESG Consultant, ESG Analyst and Carbon Compliance roles in consulting and corporate sustainability teams.

PROFESSIONAL EXPERIENCE

ESG Consultant — Carbon Crunch

Sep 2026 – Present

Client: UltraTech Cement | Plants: Tanda, Arakkonam, Aligarh, Panipat, Magdalla

- Executed RCO compliance modelling for five UltraTech Cement plants (Tanda, Arakkonam, Aligarh, Panipat, Magdalla), quantifying renewable consumption gaps against regulatory obligations in Excel.
- Analysed utility electricity bills to extract plant-level consumption data and fed it into the RCO calculations used for client progress reporting.
- Engineered multi-facility Excel trackers and dynamic compliance calculators to monitor obligation status across plants.
- Standardized raw energy and consumption data from multiple sources and applied Data QA checks to improve the accuracy and consistency of compliance datasets.

SKILLS

Carbon Compliance & Regulation: RCO Compliance Modelling, GHG Protocol (Scope 1 & 2), CCTS, PAT, CBAM, Voluntary Carbon Markets (VCM)

ESG Reporting: SEBI BRSR / BRSR Core, GRI, IFRS S1 & S2 (ISSB)

Data & Analytics: Advanced Excel (Dynamic Compliance Calculators, Multi-Unit Dashboards, Data Validation, Pivot Tables), Power BI, Utility Bill Analytics, Data QA

Spatial & Environmental: QGIS (Spatial Contouring & Environmental Mapping), Field Noise Monitoring, CPCB Benchmarking

PROJECTS

Infosys ESG Data Extraction, Cleaning & Validation

Excel | 2026

- Extracted and structured ESG data from three Infosys FY2024–25 disclosures into a source-referenced Excel dataset, recording the page number and official URL for every value.
- Standardized units (kWh, GJ, kWp, tCO₂e, t), cleaned values with a documented cleaning log, and validated totals against reported figures, with all checks matching (e.g. FY2025 electricity 222,975,912 kWh).

Infosys Corporate GHG Inventory (Scope 1, 2 & 3)

Excel | 2026

- Rebuilt Infosys FY2023–25 Scope 1 and 2 emissions from activity data and documented emission factors, reconciling to reported figures: Scope 1 within 5% in all three years and Scope 2 within 9.9–14.2%.
- Analysed reported Scope 3 (179,370 tCO₂e, 79% of the 226,701 tCO₂e FY2025 total) and documented assumptions and data the company does not disclose.

MSc Dissertation — Noise Pollution Mapping in Delhi (Jamia Millia Islamia)

QGIS, Excel | 2025 – 2026

- Measured L_{max}, L_{min} and L_{eq} at 36 locations across 6 time periods (200+ readings), capturing day-vs-night and weekday-vs-holiday variation.
- Modelled spatial and temporal noise distribution in QGIS across residential, commercial and silence zones and produced comparative noise-contour maps.
- Benchmarked results against CPCB ambient noise standards to identify non-compliant hotspots and their drivers (traffic density, land use, zoning gaps).

Infosys ESG Performance Dashboard

Excel, Power BI | 2025

- Built an ESG performance dashboard from Infosys FY2023–FY2025 public disclosures, tracking GHG emissions (226,701 tCO₂e in FY2025, down from 254,921 in FY2023), renewable electricity share (72.6% in FY2025), water use (4.1 Mn m³) and waste generated (37,518 t).
- Derived a composite environmental performance score (84/100) and summarized year-on-year trends.

EDUCATION

MSc Environmental Science — Jamia Millia Islamia, New Delhi

Jul 2024 – May 2026

Dissertation: Noise Pollution Mapping in Thickly Populated Clusters of Delhi Using GIS and Field-Based Noise Monitoring (Supervisor: Dr. Sirajuddin Ahmed)

BSc Environmental Chemistry — Maharaja's College, Kochi, Kerala

2021 – 2024
